

## The 3<sup>rd</sup> Round Table Talk

Sponsored by the Graduate School of Natural Science and Technology

# BEYOND LINGUISTIC BARRIERS:

## Possibilities and Challenges of Internationalizing our Student Body

When **Tuesday, Dec. 21<sup>st</sup> 16:30-18:30**

Where **NST Lecture Hall A Block**

The number of International students studying at the Graduate School of Natural Science and Technology increased by 1.5 times in 2009-2010. As a result, our student body became more diverse and the necessity of speaking English as a communication tool in classes and laboratories has increased. What possibility and challenge does this change produce?

Please join the round table talk to find the best way forward through sharing the thoughts and experiences among international and domestic students and educators.
