

Research fields -Chemical science-

- Environmental Chemistry, Marine Chemistry, Chemical oceanography

Professor
Hiroshi HASEGAWA

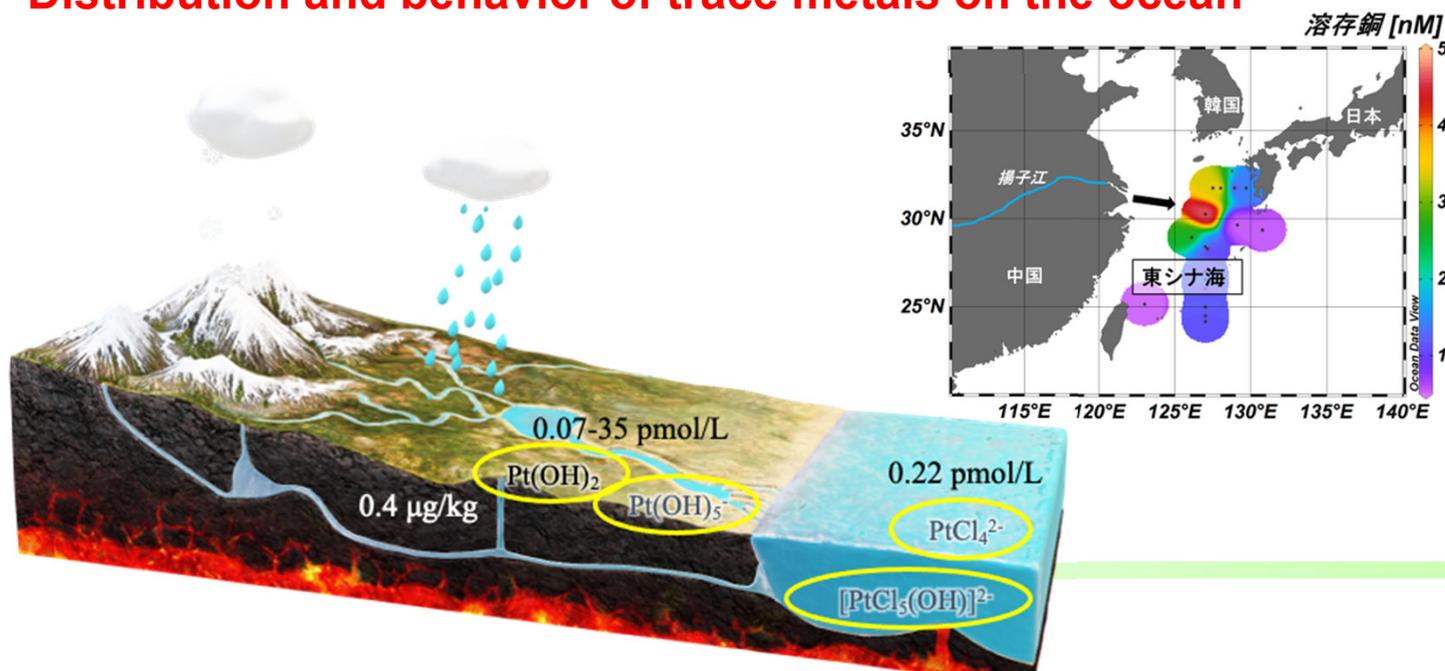

Assistant Professor
Asami MASHIO

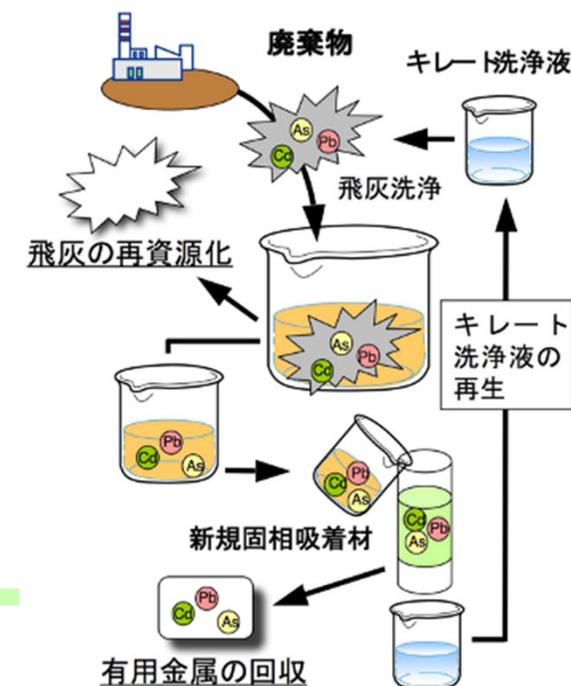

Assistant Professor
Kuo Hong WONG

Distribution and behavior of trace metals on the ocean

Remediation technology utilizing the natural cycle

Research fields -Chemical science-

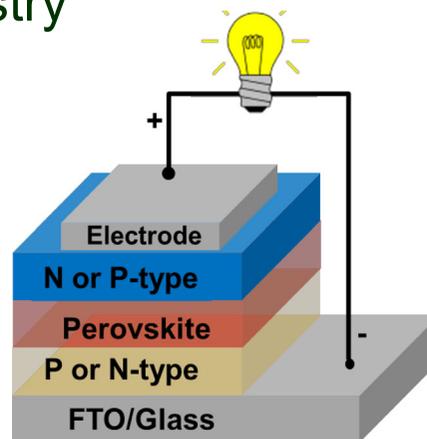

■ Nanomaterials chemistry, Electrochemistry

Professor
Tetsuya TAIMA

Assistant Professor
Md Shahiduzzaman

**Organic electronics, Perovskite solar cell
Functional electrode**

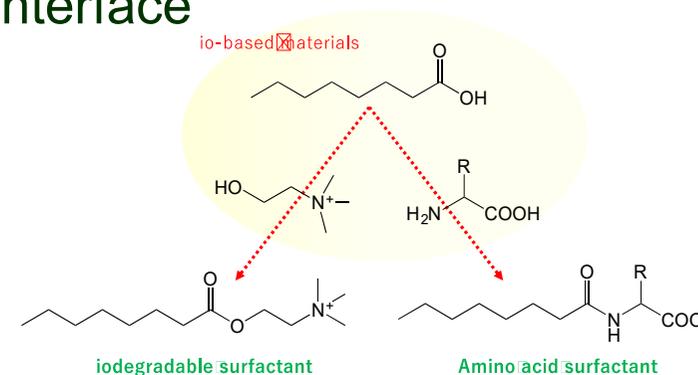

Associate Professor
Takahiro YAMAGUCHI

■ Physical Chemistry for Interface

Associate Professor
Akio OHTA

**Amino acid-type surfactants
Biomaterials**
