

Research fields

-Civil and Environmental Engineering

◆ Water environment

Professor
Ryo HONDA

Associate Professor
Norihisa
MATSUURA

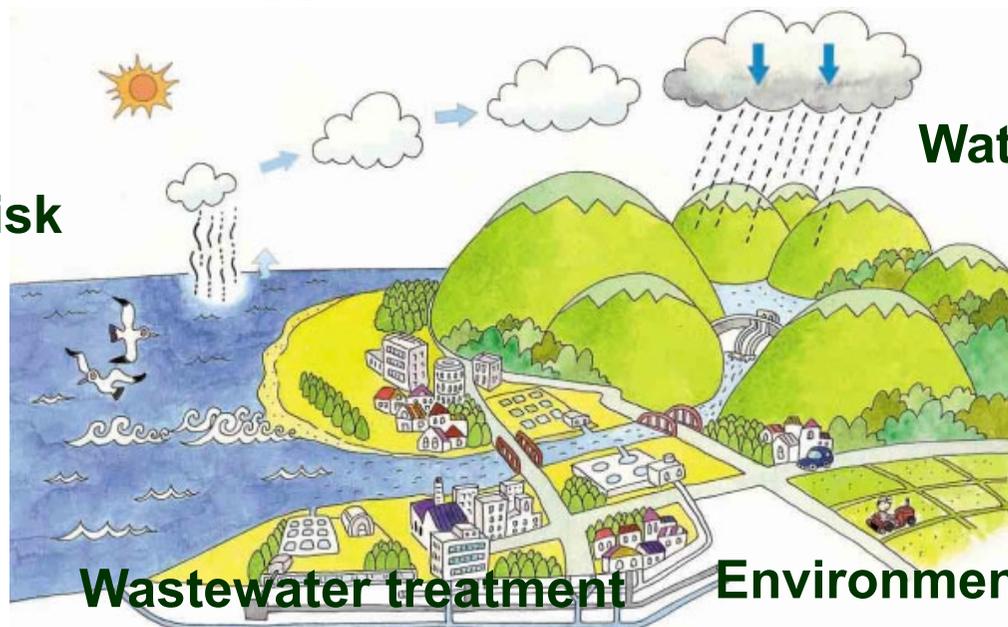

Assistant Professor
Hiroe HARA-
YAMAMURA

Associate Professor
Seiya HAANAMOTO

**Environmental risk
management**

**Micropollutants
microorganisms**

Water supply

Water reuse

Biomass recycle

**Solid waste
management**

Wastewater treatment

Environmental microbiology

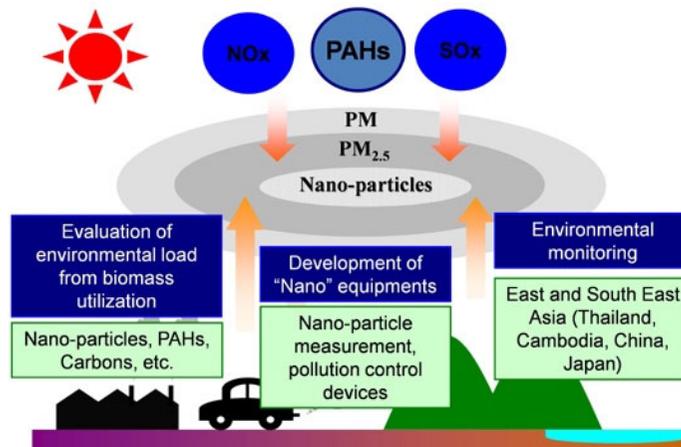

Research fields

–Civil and Environmental Engineering

■ Atmospheric environment and Pollution control

Professor
Mitsuhiro HATA

■ Environmental Materials

Professor
Masashi OHASHI

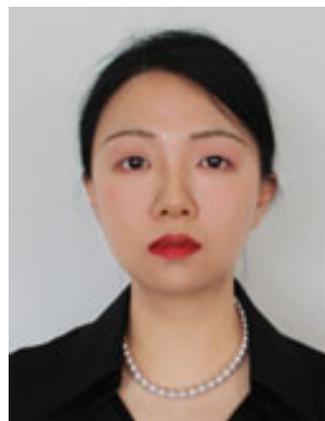

Associate Professor
Yuri NISHIWAKI

■ Urban planning

Professor
Zhen-jiang SHEN

Assistant Professor
Xiao TENG

■ Facility planning in Architecture

Professor
Tatsuya NISHINO

■ Water Cycle

Professor
Kenji TANIGUCHI

Water Cycle by the approach of Natural Science as Meteorology, Climatology and Hydrology.
