

Division of Geosciences and Civil Engineering	Research field	Spatial Statistical Informatics	Lab. ID GC06
Laboratory web site	https://spatial.w3.kanazawa-u.ac.jp/		
Research subjects			
Investigate the spatial information (incl. location-based data) to discover new findings. For details, see our website.			
Master/Doctor course: Education policy, curriculum, typical activity in the laboratory			
We respect the independence of master and doctoral students, which means that the students have responsibility for their researches. The theme is decided through the discussions on the students' interests and characteristics.			
Daily life in the laboratory, etc.			
: Weekly meeting and laboratory seminar. : Presentations in academic conferences. : Workshops with students and professors in other universities.			
Message or comments by the laboratory faculty staffs			
We welcome the students with strong desire to achieve something interesting and insightful.			
Laboratory mail address	Assoc. Prof. Nakanishi at nakanishi [at sign] se.kanazawa-u.ac.jp
