

Division of Frontier Engineering	Research field	Measurement and Control	Lab. ID FE04
Laboratory web site			
Research subjects			
In our laboratory, autonomous vehicle which can drive at urban area have been developed.			
Master/Doctor course: Education policy, curriculum, typical activity in the laboratory			
Students who belongs to our laboratory should report their research every week.			
Daily life in the laboratory, etc.			
In our laboratory, students can learn many research area related to autonomous vehicle, such as mobile robot, image processing and so on. Additionally, autonomous driving test under real urban environment using autonomous vehicle can be conducted by their own programs based on C/C++ language. Please join our laboratory if you are are interesting in autonomous vehicle.			
Message or comments by the laboratory faculty staffs			
In our laboratory, state-of-the-art of autonomous vehicle have been developed in our laboratory. Please come and join us if you are interested in autonomous vehicle.
