

Application for Sustainable Development Program in Graduate School of Natural Science and Technology, Kanazawa University for April 2026

The world is in the midst of a great change for the realization of a sustainable society. The Graduate School of Natural Science and Technology aims to foster excellent researchers and engineers with interdisciplinary and synthesizing skills and creativity. In this rapidly changing society, we are required to take on challenges in new fields of study with interdisciplinary ideas and an international perspective, in addition to expertise and investigation skills.

Based on this concept, the five-year Sustainable Science and Technology Program was established to provide a new field of study spanning multiple disciplines in order to produce innovative doctors who can contribute to building a sustainable, safe and secure society and play an active role in the world.

Although this program is an integrated five-year program, it is also open to students who are newly entering our university at the doctoral course or who wish to participate in this program after entering the doctoral course from the master's course at Kanazawa University. We hope that this will stimulate the program and make it a fulfilling learning experience.

We are recruiting students enrolled in April 2026 as follows.

1. Recruitment target

Applications are open to all students who have enrolled in the doctoral course of the Graduate School of Natural Sciences and Technology, regardless of their major.

However, this program focuses on people who are motivated to pursue studies not only within their own specialized field but also beyond disciplinary boundaries, and who are willing to take on the challenge of innovation.
