

Division of Mechanical Science and Engineering	Research field	Affective Engineering	Lab. ID ME21
Laboratory web site	http://mechs.ms.t.kanazawa-u.ac.jp [in Japanese]		
Research subjects			
The visual judgement by skilled workers is required to produce excellent engineering products. However, it is quite difficult to quantify their judgment criterions. Therefore, for visual judgement by unskilled workers, our goal is to develop a new method to obtain objective and quantitative criteria by elucidating roles of each visual information in visual judgements.			
Master/Doctor course: Education policy, curriculum, typical activity in the laboratory			
We hold two kinds of meetings every week, our group seminar, and an one-on-one meeting.			
Daily life in the laboratory, etc.			
I was able to solve the questions of the study by my ideas and ingenuity. Own ideas are reflected directly in the results of the study. (Graduates)			
Message or comments by the laboratory faculty staffs			
We think it is very important ability for you to discuss with reasonable considerations and ideas. Let's develop new objective evaluation method together!
